

# OUR GLOBAL MARKET

People around the world are connected by global trade. By using goods that have come from places around the world, you are connected to the producers there!

The pineapple in Finn's lunch came from Costa Rica. Costa Rica is a country in Central America. Ava's new tablet was made in Shenzhen [say SHUN JEN]. Shenzhen is a large city in China. The world map below shows where these items came from.

Look at the labels on your clothing and the packaging of food items to find out where they came from. Choose three items and add them to the countries they came from on the map below.

Have an adult help you find the continent where the country or city is located.
